

QUEENCITY
TRANSIT SOLUTIONS

TRANSPORTATION BARRIER CATALOG

From fixed route buses to paratransit vehicles, we've got you covered!

All barriers meet FMVSS 205, FMVSS 302 safety requirements and ANSI Z26.1

Queen City Transit Solutions, located in Concord, NC, is a North Carolina registered Professional Engineering firm founded in 2015 to bring value to our customers with our Mechanical Engineering & Manufacturing Services. Having worked exclusively in Research & Development throughout his career, our Founder and President, Rex Carriker P.E., a graduate of North Carolina State University, created Queen City Engineering & Design to provide Turn-Key Engineering Solutions for the complex problems our customers encounter in modern manufacturing. Our in-house team of engineers and technicians are highly skilled in the design and development of purpose built, custom engineered products and solutions. We realize our customers want real-world solutions to their real-world problems so it is this reason that in 2018 we relocated to a new 7,000 sqft manufacturing facility in Concord, NC. With machining, sheet metal, welding, and finishing capabilities, this addition allows us to provide truly Turn-Key Solutions to our customers by fully controlling the entire development process resulting in greater flexibility and shorter lead times. We have built our business by earning our customers' trust through creating realistic, cost effective solutions to their most troubling problems.

Industries Served

- Automation & Robotics
- Automotive
- Motorsports

Fixed Route Barriers

Driver Barrier Security Doors

Common Vehicle Types:

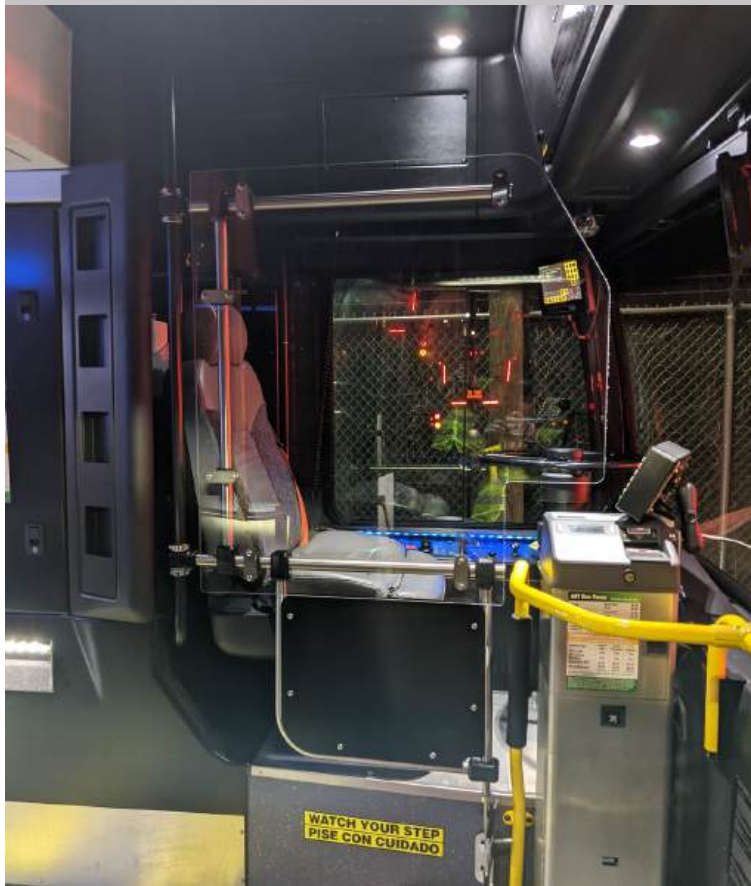

Gillig, Arboc, BYD, New Flyer, Eldorado, Opus, Orion, Nabi, Neoplan, Trolleys and many more!

Securely attaches to the existing driver's area compartment with minimal vehicle modification, installs in approximately 35 minutes, features an easy to slide window that can be locked in either the open or closed position, has a universal design, comes pre assembled, and weighs less than 50 lbs. Opens and closes like a standard door and includes a metal security kick panel. Custom-designed to fit around aftermarket and existing bus equipment and controls with locking controls that allow the driver to select from two positions, adjusting how close the barrier is to them. Glazing material meets all Safety Standards and is DOT stamped. All products meet the Buy American Act.

Use fitment guide for sizing and measurements.

Anti-Reflective Driver Barrier System

With Driver Assault on the rise, Driver Barrier/Protection is a must. However, the number one complaint of the Driver Barrier System is glare. Our team of engineers have been working for a year to come up with a system that reduces glare.

Now introducing our Anti-Reflective Driver Barrier System.

Features:

- High Optical Quality with exceptional durability
- Proprietary Anti-reflective surface treatment reduces glare and enhances driver visibility.
- Meets all applicable safety standards such as ANSI Z26.1, FMVSS 205, and FMVSS 302
- DOT Stamped
- Meets Buy American Act
- Abrasion Resistant, Chemical Resistant, and made for long-lasting performance
- Additional close out panel allows for an additional 3" of driver space and comfort

Visor Barriers

Common Vehicle Types:

Gillig, Arboc, BYD, New Flyer, Eldorado, Proterra, Opus, Orion, Nabi, Neoplan, Trolleys and many more!

Requires little to no modification to your vehicle, installs within 5 minutes, come presassembled, opens and closes like a visor, and can be adjusted by the driver for comfort and better coverage by moving the barrier up and down and in and out on the stanchion. Extends to add extra coverage for interaction with the farebox.

Use fitment guide for sizing and measurements.

Side Shield

P/N: 204-9002 -- 36" x 24"

P/N: 204-9001 -- 30" x 24"

Easy to Use
Easy to Install
Better Coverage

Visor Barrier Mounting Kits

Makes little to no modification to your vehicle, installs within 5-10 minutes, complete kits with hardware, allows you to properly install visor barriers onto vehicles like Gillig, Nabi, Proterra and more.

Gillig/Nabi Mounting Kit

P/N: FRB-0600-1250

Proterra Mounting Kit

P/N: 201-7004-7006

Made with Economical, High Quality, Compliant Materials. DOT Stamped.

Cutaway / LTV Barriers

Driver Barrier Security Doors

Common Vehicle Types:

Champion, Arboc, Starcraft, Elkhart, Goshen, E450, Eldorado, GMC C5500, and many more.

Securely attaches to the existing driver's area compartment with zero vehicle modification, installs in approximately 15 minutes, has a universal design, comes pre assembled, and weighs less than 50 lbs. Opens and closes like a standard door and is custom-designed to fit around aftermarket and existing bus equipment and controls. Built-in adjustability allows the maintenance team to position the barrier system anywhere on the station based on driver's height and comfort. Glazing material meets all Safety Standards and is DOT stamped, All products meet the Buy American Act.

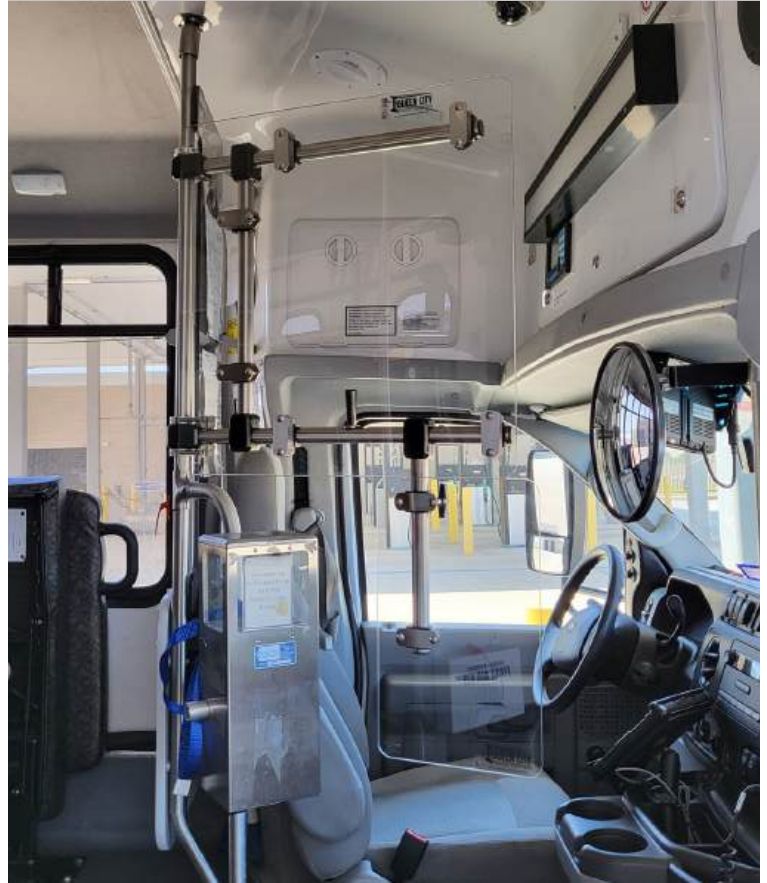

LTV Standard Door - No Farebox Accommodation

P/N: 22-635-8000

LTV Standard Door - Farebox Accommodation

P/N: 22-615-8000 / 22-615-8010

Quick Install. DOT Approved. Superior Protection.

Driver Barrier Security Doors

Common Vehicle Types:

Freightliner, Goshen, and Larger LTVs

Securely attaches to the existing driver's area compartment with minimal vehicle modification, installs in approximately 35 minutes, features an easy to slide window that can be locked in either the open or closed position, has a universal design, comes pre assembled, and weighs less than 50 lbs. Opens and closes like a standard door and includes a metal security kick panel. Custom-designed to fit around aftermarket and existing bus equipment and controls with locking controls that allow the driver to select from two positions, adjusting how close the barrier is to them. Glazing material meets all Safety Standards and is DOT stamped. All products meet the Buy American Act.

Across the
United States!**

SERVING CUSTOMERS ACROSS THE US FROM THE QUEEN CITY!

Based in the Queen City of Charlotte, North Carolina, our team provides customers across the continental United States and Canada with expert designs and installations!

What Do Our Customers Have to Say About Us?

"THE SHIELDS ARE WORKING SPLENDIDLY. NO PROBLEMS TO REPORT AND I WILL DEFINITELY KEEP YOU IN MIND FOR FUTURE ENDEAVORS. I APPRECIATE YOUR FOLLOW UP AND GENUINE CARE. THAT IS HARD TO FIND THESE DAYS"

Vincent | STARS | Senior Manager Maintenance & Facilities

"ASHLEY AND THE FOLKS AT QUEEN CITY ENGINEERING HAVE BEEN A GREAT COMPANY TO PARTNER WITH. WE CAME TO THEM WITH OUR FLEET AND WE HAVE SEVERAL DIFFERENT MODELS FROM 1996 NEW FLYERS TO 2019 GILLIGS AND THEY WERE ABLE TO QUICKLY COME UP WITH SOLUTIONS FOR ALL OF THE DIFFERENT MODELS. WHEN WE DID HAVE AN ISSUE WITH THE SIZE OF ONE OF OUR STANCHIONS, THEY WERE QUICK TO REMEDY THE PROBLEM AND SOLVE THE ISSUE FOR US. I HIGHLY RECOMMEND THEM AS THEY HAVE A GREAT SOLUTION THAT MOUNTS QUICKLY AND WORKS GREAT!"

David | CARTA | General Manager

"THANK YOU FOR BEING SO GREAT TO WORK WITH AND FOR REALLY TAKING THE TIME TO UNDERSTAND OUR NEEDS. YOU GUYS WERE GREAT TO WORK WITH"

Vanessa | HRDC | Transportation Program Manager

"WE WOULD RECOMMEND QUEEN CITY ENGINEERS TO ANY COMPANY LOOKING TO INSTALL THE PROTECTIVE SHIELDS. THEIR TEAM IS VERY PROFESSIONAL AND FLEXIBLE WITH OUR SCHEDULE TO ENSURE OUR ENTIRE FLEET WAS COMPLETED IN TWO DAYS!"

Masie | Mecklenburg Transportation System | Manager

"THANKS FOR YOUR PROFESSIONALISM AND COMMITMENT TO ETHICAL BUSINESS PRACTICES! IT HAS BEEN A PLEASURE WORKING WITH YOU"

Tom Beggs P.E., LEED AP | Providence Day School | Director of Facilities

Recipient of NCMEP's 2022 Leadership Award of Innovative Practice
